

Dear Valued Client:

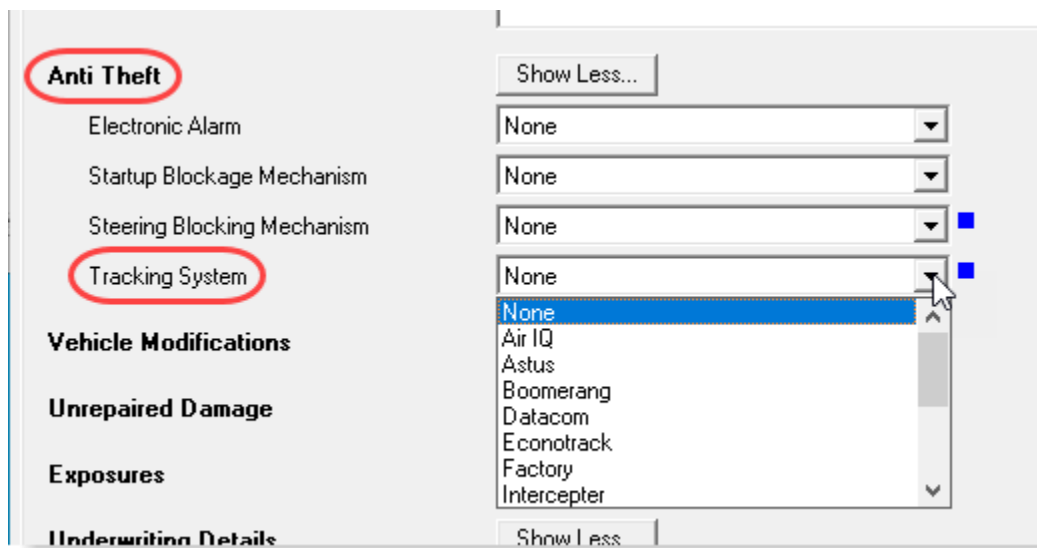

Re: The Broker's Workstation – Important Releases and Changes

Custom Software Solutions Inc. (CSSI) is pleased to announce the release of the following enhancements and new features to The Broker's Workstation (TBW):

Additional Options in Tracking System Field

Additional options have been added to the Tracking System field in Auto IntelliQuotes.

On the Underwriting Details tab in an Auto IQ, the **Tracking System** field is located in the **Anti Theft** section. New Tracking System options include Astus, Datacom, Econotrack, Interceptor, KYCS Global Inc., Mobilus, NavLynx, Sherlock, and Tag.

When you create or edit an Auto IQ, select the appropriate option in the Tracking System drop-down list. Once the Auto IQ is completed, any related discount will be included in the Summary Report and applied to the premium.

These new options are available for all companies in applicable regions. Please remember, the Tracking System field is only available for certain vehicle types.

Please share this information with the appropriate TBW users in your office(s). Once you have reviewed this document, if you have any questions regarding these features or need further assistance in their usage, please contact our Client Services Team at 1-888-291-3588 (toll-free telephone) or clientservices@cssionline.com.

Thank you for using The Broker's Workstation.

Yours sincerely,

Custom Software Solutions Inc.
